

VolatileReadOp::getOperatorName

VolatileWriteOp::getOperatorName

VolatileOp::appendSize

```
graph LR; A[VolatileReadOp::getOperatorName] --> C[VolatileOp::appendSize]; B[VolatileWriteOp::getOperatorName] --> C;
```

The diagram illustrates a directed graph with three nodes. On the left, there are two white rectangular nodes with black borders. The top node contains the text 'VolatileReadOp::getOperatorName' and the bottom node contains 'VolatileWriteOp::getOperatorName'. On the right, there is a gray rectangular node with a black border containing the text 'VolatileOp::appendSize'. Two blue arrows originate from the right side of the leftmost nodes and point towards the left side of the gray node, indicating a directed relationship from the left nodes to the right node.
