

SleighCompile::createMacroUse

SymbolTable::purge

MacroSymbol::getNumOperands

```
graph LR; A[SleighCompile::createMacroUse] --> C[MacroSymbol::getNumOperands]; B[SymbolTable::purge] --> C;
```

The diagram illustrates a mapping from two source functions to a single target function. On the left, two white rectangular boxes with black borders contain the text 'SleighCompile::createMacroUse' (top) and 'SymbolTable::purge' (bottom). On the right, a gray rectangular box with a black border contains the text 'MacroSymbol::getNumOperands'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both source functions are mapped to or resolved to the target function.
