

Varnode::updateType

```
graph LR; A[Varnode::updateType] --> B[Datatype::getMetatype]
```

A diagram showing a call from Varnode::updateType to Datatype::getMetatype. The first box, Varnode::updateType, is shaded gray and has a black border. A blue arrow points from its right side to the second box, Datatype::getMetatype, which is white with a black border.

Datatype::getMetatype
