

SleighArchitecture
::buildPcodeInjectLibrary

```
graph LR; A[SleighArchitecture::buildPcodeInjectLibrary] --> B[Translate::getUniqueBase]
```

A diagram showing a call from a function to another function. On the left, a gray rectangular box contains the text "SleighArchitecture" on the first line and "::buildPcodeInjectLibrary" on the second line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "Translate::getUniqueBase".

Translate::getUniqueBase
