

ContextOp::validate

```
graph LR; A[ContextOp::validate] --> B[OperandValue::isConstructorRelative];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'ContextOp::validate'. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'OperandValue::isConstructorRelative' on two lines.

OperandValue::isConstructor
