

Funcdata::findOp

```
graph LR; A[Funcdata::findOp] --> B[PcodeOpBank::findOp]
```

A diagram showing a pointer relationship between two function pointers. On the left, a gray rectangular box contains the text 'Funcdata::findOp'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'PcodeOpBank::findOp'. Both boxes have a black border.

PcodeOpBank::findOp
