

lfcParseFile::execute

lfcParseLine::execute

parse_C

```
graph LR; A[lfcParseFile::execute] --> C[parse_C]; B[lfcParseLine::execute] --> C;
```

The diagram illustrates a dependency or call relationship. Two white rectangular boxes on the left, labeled 'lfcParseFile::execute' and 'lfcParseLine::execute', have blue arrows pointing from their right sides to a single gray rectangular box on the right labeled 'parse_C'. This indicates that both functions call or depend on the 'parse_C' component.
