

ScopeInternal::resolveExternal
RefFunction

ScopeGhidra::resolveExternal
RefFunction

ExternRefSymbol::getRefAddr

```
graph LR; A[ScopeInternal::resolveExternalRefFunction] --> C[ExternRefSymbol::getRefAddr]; B[ScopeGhidra::resolveExternalRefFunction] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, there are two white rectangular boxes. The top box contains the text 'ScopeInternal::resolveExternalRefFunction' and the bottom box contains 'ScopeGhidra::resolveExternalRefFunction'. On the right, there is a gray rectangular box containing the text 'ExternRefSymbol::getRefAddr'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both functions on the left call or depend on the function in the gray box.
