

Funcdata::truncatedFlow

```
graph LR; A[Funcdata::truncatedFlow] --> B[FuncCallSpecs::clone]; B --> C[FuncCallSpecs::setFuncdata];
```

The diagram illustrates a three-step process flow. It begins with a box labeled 'Funcdata::truncatedFlow', followed by an arrow pointing to a box labeled 'FuncCallSpecs::clone', and finally an arrow pointing to a box labeled 'FuncCallSpecs::setFuncdata'. The final box is shaded gray, indicating it is the final step in the sequence.

FuncCallSpecs::clone

FuncCallSpecs::setFuncdata
