

execute

```
graph LR; A[execute] --> B[ifaceStatus::evaluateError]
```

A diagram showing a call from a box labeled 'execute' to a box labeled 'ifaceStatus::evaluateError'. A blue arrow points from the right side of the 'execute' box to the left side of the 'ifaceStatus::evaluateError' box. The 'execute' box is white with a black border, and the 'ifaceStatus::evaluateError' box is gray with a black border.

ifaceStatus::evaluateError
