

Sleigh::registerContext

```
graph LR; A[Sleigh::registerContext] --> B[ContextDatabase::registerVariable]
```

A diagram showing a call from Sleigh::registerContext to ContextDatabase::registerVariable. The first box, containing 'Sleigh::registerContext', is shaded gray and has a black border. A blue arrow points from its right side to the left side of the second box. The second box, containing 'ContextDatabase::registerVariable', is white with a black border. The text in the second box is split into two lines: 'ContextDatabase::register' on the top line and 'Variable' on the bottom line.
