

EmulateFunction::setExecute
Address

```
graph LR; A[EmulateFunction::setExecuteAddress] --> B[Funcdata::target]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'EmulateFunction::setExecute' on the top line and 'Address' on the bottom line. The right box is gray with a black border and contains the text 'Funcdata::target'. A dark blue arrow points from the right side of the left box to the left side of the right box.

Funcdata::target
