

ActionStop::apply

```
graph LR; A["ActionStop::apply"] --> B["Funcdata::stopProcessing"]
```

A diagram showing a call from ActionStop::apply to Funcdata::stopProcessing. The first box, containing 'ActionStop::apply', is shaded gray and has a black border. A blue arrow points from its right side to the second box, which contains 'Funcdata::stopProcessing' and has a white fill and black border.

Funcdata::stopProcessing
